Keynote by Alex Scott

This symposium will gather together in Berkeley, CA at East Bay School for Boys, with other Bay Area schools and schools across the nation to share best practice and to compare where we are and how to collaborate with the goal of creating a space where adult community members from boys and girls schools can proactively explore emerging notions of gender and their implications for their institutions.

The objectives for this symposium include:

- A basic understanding of gender diversity
- Help schools and stakeholders identify the key issues around gender inclusion;
- Hear perspectives from transgender, non-binary and other gender-expansive students and adults

- Consider legal implications for schools
- Explore emerging best practices for concrete policies / guidelines needed in admissions and retention
- Dispel myths of gender inclusion in single-sex settings and its implication for curriculum, bathrooms, overnights, uniforms, and other aspects of our school
- Discuss operationalizing gender inclusive policies and guidelines like the nuts and bolts of logistics, costs and impact
- Share curriculum, culture building exercises and best practices on learning about gender inclusion in the classroom
- Create a supportive, safe and inclusive environment for all gendered students
