

Collaborate - Innovate

Breaking the Stereotype II

Boys' Art Education Symposium 2016

The theme of the symposium is 'Collaborate – Innovate'. This exciting symposium will challenge the notion of boys' disengagement in secondary school visual arts and seek to promote boys art education in a healthy and meaningful way. The theme aims to explore the inquiry and framing of the complex issues faced by art educators today; including the pedagogies and technologies that facilitate boys' creative needs.

This symposium will be celebrating the achievements of boys in visual arts through presentations, artists' talks, gallery visits, workshops and case studies. We welcome submissions from educators and researchers to peer-review papers, to be presented to an audience of secondary art educators, pre-service educators, school leaders and policy makers.

Wednesday 29th June

8.30 am St Edmunds College, Canberra

Registration
